

Computerised Sound Mixing Desk

March 2007 News Letter

Dear All,

Welcome to CSMD's March Newsletter. The last month has been a very good month in terms of new customers signing up to use our software, and it looks like we will be having another record quarter. Also we have noticed quite a few customers starting to upgrade to CSMD Advanced, the offer is still available and you can upgrade as an existing customer for as little as £9.74.

CSMD Portable Beta:

You may remember back at the beginning of this year we promised a range of new products, well last month saw the launch of CSMD Advanced, and this month sees the launch of the Beta version of CSMD Advanced Portable. CSMD Advanced Portable, has exactly the same features as CSMD Advanced but with one major difference. This is that it can be run from a USB Memory Stick or Portable Hard Drive making it even more useable. Not only does the software sit on the USB Memory Stick but also the Tracks and HotKey tracks are stored on it too. The idea behind this is that you can prepare a show at home. When its done, pull the device out of your PC, goto your venue, and pop the device into your PC there, and away you go. In theory the only software that you will need to Install on the PC is the .net framework and direct x 9c, although these are often installed as standard on many PC's.

Because you are storing the Software and Tracks on the device we recommend that you use a large device ideally 2GB or larger. This means you don't have to worry about running out of space on those larger shows. We also recommend a PC and Device being USB 2 Compatible, to make sure that the device can be accessed fast enough. However if you don't have USB2 or are finding it a little slow, then you can just copy all the of the Software and Tracks over to the PC first and run it from there.

The Beta version was released earlier this week and is available to download from our Beta pages at <http://www.csmd.co.uk/?PID=25> and try the software for yourself. We aim to release it fully towards the end of March. As of yet prices are unknown, but it will be sold as an addon to CSMD Advanced, not as a separate product.

If you have any problems with the software please don't hessitate to get in touch with our support team, support@wjps.co.uk.

CSMD Advanced:

Just a quick reminder that CSMD Advanced is available now, listed below are the Prices of the current versions:

Product	Price (GBP)
Keycode	£29.99
Fully Packaged	£39.99
Educational Keycode	£24.99
Upgrade from CSMD	£12.99

Web: <http://www.wjps.co.uk>

Email: info@wjps.co.uk

©WJPS 2003 – 2006 All Rights Reserved

In order to Upgrade from CSMD to CSMD advanced you must provide your valid licence key before our payment system will allow you to pay for the upgrade. Please see our offers section as we have a limited time special offer on upgrades!

Current Offers:

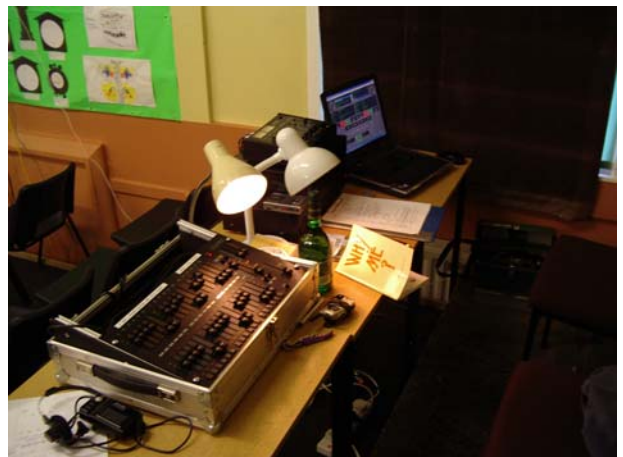

During February existing customers of CSMD will be able to upgrade to CSMD Advanced for £9.99 instead of the normal upgrade price of 12.99. In order to make this saving please enter the following Discount Code when requested to do so **CSMDUP07**. Please also remember that you will be required to enter your current keycode and email address before being able to upgrade CSMD.

Links:

Since we launched our website 18 months ago we have been building up a list of links which help our customers find other products / services which complement CSMD. We now have quite a large list, however if you would like to add your website then please email support@csmd.co.uk with your link, and we will be happy to pop it on the site for you. All we ask in return is that you place a reciprocal link on your website. If you would like to link to us, please link to <http://www.csmd.co.uk> with the title Computerised Sound Mixing Desk.

Pictures of your setup or you using our software?

The other week a few of us were chatting over lunch and looking at some photos, this made us think how it would be nice and a good laugh to see some of our customers using our software. So if you have any pics, no matter how silly or serious of you using CSMD then we would love to see them, if we get a few we might even consider setting up a gallery of users. Email your photos to james.proctor@wjps.co.uk with a little description explaining the picture, if it isn't already self explanatory. Just to get you going here is a picture of the setup we had in the early days while testing the software before its release.

Downloads:

Please don't forget that you can download our free demo software from the website at any time. Why not tell your friends about it, they might find it just as useful as you do. We're so confident that you will like our software that our demo is fully operational, except it is time-limited to 15 minutes. We feel this gives you an opportunity to explore the software fully, and try out all of the great features. Visit the website, <http://www.csmd.co.uk> or <http://www.soundmixingsoftware.co.uk> to download a demo today.

P.S. Demos of CSMD and CSMD Advanced are now available.

Well that's the end of another full newsletter, over the next few weeks we will be perfecting CSMD Advanced Portable and have it ready for release soon.

Until next time,

Kind Regards

WJPS Team
